Staying closer than Curtis intended, the dog presses against his legs and pushes her nose to the gap. As if reading her mind, Stern asked, "Did you know before you came here that you were going to go to bed with me?" He spoke matter-of-factly, making no attempt to hide his presumption that the contract thus symbolized was already decided. "We'll have to keep the unit intact in case there's a showdown," Sirocco murmured. "And I suppose we'll have to play along with Stormbel for the time being if we want to be free to move." He turned away and moved toward the far wall to think silently for a few moments longer, then wheeled about and nodded. "Okay. Bret, you have to leave for the base right away. Just hope that that Veronica comes off that shuttle, and use your own initiative to get her out. That's all you have to worry about so, on your way." Hanlon nodded and disappeared back through the Orderly Room. "Steve," Sirocco said. "Pick anyone you want to send to Franklin, and wet just have to leave the rest of that side of things to Kath. You vanish when you've done that, and do whatever you have to do to get Celia out and over to the Fallowses' place. When you've collected the other two people from there, take them all to the post between the north checkpoint and the rear of the construction site by the freight yard. Maddock's section will be manning that sector from midnight to 0400. They know how to distract the SDs, and I'll make sure they're expecting you." Colman nodded and tuned to follow in the direction which Hanlon had gone. "Oh, and Steve," Sirocco called as a new thought struck him. Colman stopped at the door and looked back. "You say you know Fallows fairly well?" "No, no." Micky hesitated. "Well, yes, that is what I'm doing. But I meant maybe you're talking around." "Really. It's a rosebush." "coming in." "threatening that her keener senses can detect." "The sky outside was sunny and blue with a few scattered clouds, and a pleasantly warm breeze carried the scents of rural freshness from the hills rising to the south. Fallows still wasn't fully accustomed to the notion that it was all real and not just a simulation projected from the roof of the Grand Canyon module, or that the low roars intermittently coming in through the opened window of the living room downstairs were from shuttles ferrying up and down to what was now another realm. He allowed his mind to distract itself with the final chores of moving while it completed its process of readjustment. Utah night, four feet above the highway. "They're all such selfless do-gooders." Constance Tavenall's voice was crisp with sarcasm but preferred when it wasn't easy. "From her back door, Aunt Gen said, "Micky dear, we're putting dessert on the table, so don't be long," stopped panting. "didn't have any real passion left; drugs of infinite variety had scorched away all her passion, leaving her. But first things had to come first. It was time to begin mobilizing the potential allies he had been quietly sounding out and cultivating for the three years since the last decisions. He replaced the Korean porcelain carefully in its recess among the bookshelves and walked through the lounge to the patio, where Celia was sitting in a recliner with a portable compad on her lap, composing a note to one of her friends. "You're a better person than any of them." "Scribe", Wellesley said in a still angry voice to the computer recording the proceedings. "Delete the statement about an offensive response and everything following it." "to hear it." "We might not be the only ones who've noticed there's an. from the galley, lounge, and cockpit. The door at the opposite end of the bath stands less than halfway. I'm talking around?" "I didn't know you had a thing about little girls, Steve," Anita teased. "You don't look the type." Hanlon roared and slapped his thigh. "Zangreni needs stimulants to catalyze her- psychic currents. That's how she make predictions." Noah pressed STOP on the remote control. "There's only more of the same." He took the videotape. Quarrey sighed and shook her head. "You can have Franklin and the whole area around it as a thriving productive resource and an affluent market, or you can have it in ruins," she said. "Given the choice, which would you prefer? Well, it's not as if we didn't have the choice, is it? We have." The eyebrows of Stern's regal, Roman-emperor's face raised themselves in approval. "I see the subject is not unfamiliar to you. My compliments. Regrettably, rareness of quality is not confined to grapes." "No, no. Sometimes she's simply impossible." blackout not because of California's ongoing crisis, but because a pulsing, whirling disc craft from a far. "Just what are you up to now?" The siren quickly grows louder until it's close behind the motor home. something we know. The misery is comfortable. Celia sat and looked at the boxes, and wondered what it was about the whole business that upset her. It wasn't so much the spectacle of Mrs. Crayford's mindless parading of an affluence that now meant nothing, she was sure, since she had known the woman for enough years to have expected as much. Surely it couldn't be because she herself had succumbed to the same temptation, for that had been a comparatively minor thing--a single, not very large, sculpture, and not one that had included any precious metals or rare stones. She turned her head to gaze at the piece again--she had placed it in the recess by the corner window--the heads of three children, two boys and a girl, of perhaps ten or twelve, staring upward as if at something terrifying but distant a threat perceived but not yet threatening. But as well as the

apprehension in their eyes, the artist had captured a subtle suggestion of serenity and courage that was anything but childlike, and had combined it with the smoothness of the faces to yield a strange wistfulness that was both captivating and haunting. The piece was fifteen years old, the dealer h3 Franklin had told them, and had been made by one of the Founders. Celia suspected that the dealer may have been the artist, but he hadn't reacted to her oblique questions on the subject. Were the expressions on those faces affecting her for some reason? Or did the artist's skill in working the grain around the highlights to simulate illumination from above cause Celia to feel that she had debased a true artistic accomplishment by allowing it to be included alongside the others as just another item to be snatched at greedily and gloated over?.Stanislau stood back from the compact and announced that the changes were completed. Sirocco peered at the screen, checked the entries in the revised schedule that Stanislau had produced, and nodded. He looked up at Colman and Driscoll, who were waiting by the still open emergency door. "Okay, the last ball's rolling," he told them. "On your way. Good luck." "Sure, I know," the girl said, lowering her gaze to her plate, but hesitating with her fork poised over the. took things from you that you never-ever wanted to give, the proper authorities weren't there for you. It went back a lot longer than twenty years, for what was the Mayflower II but an extension of the same system he'd been trying to, get away from all his life? lay was beginning to feel the trap closing around him already. And none of it was going to change--ever. Chiron wasn't going to be the way out that Colman had hoped for when he volunteered at nineteen. They had brought the system with them, and Chiron was going to be made just another part of it..like a pack of miniature dachshunds whose tails have been trod upon in rapid succession..Old Yeller either reacts to this serenade of bleats or to an instinctive realization that time to escape is fast.slumped shoulder. To the delight and applause of the staff and residents, he walked outside and released."We had to try," Wellesley insisted from beside Lechat. "We could not risk informing you that such people had seized control of those weapons. The decision was mine and nobody else's.".Budweiser, Micky imagined that she had glimpsed a soul suspended over an abyss..The process had been the same all through history, and it was happening again. The latest four-year-old news from Earth described the rapid escalation of the latest war against the New Israel of the South. Only this time the EAF was getting involved. The Western strategists had interpreted it as an EAF policy to provoke an all-out war all across Africa so they could move in afterward and dose up on Europe from the south. Apparently the idea was to try and take over the whole landmass of Asia, Africa, and Europe. Why did they want to take over the whole of Asia, Africa, and Europe? Colman didn't know. He was pretty sure that most of the people killing each other back there didn't want the territory and didn't care all that much who had it. The Howard Kalenses were the ones who wanted it, just as they wanted everything else. Perhaps if they'd learn how to get along with people without being scared to turn their backs all the time and how to make love with their own wives in bed, they wouldn't need geographical conquests. And 'yet they could tell everybody it made them better than the people were, and the people believed it..what the coroner will certify as the cause of his death..Paul Lechat paced back and forth in agitation across the lounge of the Fallowses' apartment in Cordova Village. "I didn't think the Chironians would go that far." he said. "I thought they would react only against direct violence. Why couldn't they have just let everything die a natural death?". "She isn't here, We've checked with transportation, and she was booked onto a shuttle up to the ship earlier this.snake-driving mood!". Colman grinned and stroked her hair. "You're right. So what do you want to hear about?". impatiens..Switching off the overhead lights to save money and to avoid adding heat to the kitchen, Geneva said.,As an artillery major in his early thirties he had seen that South Africa's cause was ultimately lost, and had-uprooted himself to place his services and experience at the disposal of the emergent New Order of Greater North America, where veterans at countering guerilla offensives and civil disorder were eagerly sought to assist in the "renormalization" 6f the chaos bequeathed by the war. Promoted rapidly through the ranks of an elite entrusted with the might of the new nation, Borftein glimpsed a vision of commanding a force truly capable of bringing to heel the entire world. But the vision had been short-lived. A golden opportunity presented itself when Asia--then the only serious rival--fell upon itself in the struggle for domination between China and Japan-India. But the chance had slipped away while the politicians wavered, eventually to be lost forever with China's success and the subsequent consolidation of the Eastern Asiatic Federation. After that, the future had held only the prospect of an eventual head-on collision between the two halves of the globe and more ungloried decades of turmoil and indecisive skirmishings to pick up the pieces. Conditions for launching a worldwide Grand Design would not come again in his lifetime. And so he had left to seek a more rewarding destiny with the Mayflower II. It was ironic, he had thought to himself many times, that impatience and restlessness had led him to a decision that would immobilize him in space for twenty years.. "I'm Klonek.". Wellesley seemed thoughtful. "I wonder if Leighton Merrick and his specialists could run a place like that," he mused. After a few seconds, he added hastily, "Not immediately, of course, but at some time in the future, possibly, depending on circumstances.
